# LEGISLATIVE SERIES

The *Legislative Series* is a selection of the more important texts in the field of labour and social security legislation, issued in instalments of about 200 pages every second month.

The texts included in each issue are printed separately so that they may be grouped according to individual requirements.

When all the texts selected from a given year have been issued, a subject index is included, together with a chronological list by country of these and other texts of international interest. The texts, the indexes and the table of contents supplied can then be bound in an annual volume.

Notes on the repeal or amendment of texts published earlier in the *Legislative Series* are included in the list of new labour legislation received, which accompanies each two-monthly issue, and also in the annual indexes.

French and Spanish editions of the *Legislative Series* are published simultaneously with the English edition.

Annual subscription rate (six issues):

40 Sw. frs.

Price of individual issues

8 Sw. frs.

*Additional copies of individual texts may be purchased separately,  
priced according to the number of pages*
